Smart Classroom Quick Start Guide

Art 102

Orientation
1. Unlock Cabinet.
Unlock the Cabinet doors.

A)  Reset by turning counterclockwise.
B)  Release.
C)  Press first two numbers at the same time.
D)  Press third number.
E)  Turn clockwise. Open Cabinet.

If you don’t know the combination or if you can’t get in, contact Tech Help by using the Help Phone on the Podium.

**Note:** The following are directions on how to use the combination not the combination itself.
2. Turn on Computer by pushing power switch.

DO NOT ATTEMPT TO ADJUST EITHER OF THESE UNITS!

Leave Main Power Switch in “On” Position at all times.
3. Turn on Monitor power.

4. Make sure Document Camera Power Switch is turned on. Switch on top upper right.
Note: Control of all the functions of these pieces of equipment is now thru the Digital Control Panel on the Touch Panel.
After the PC boots up the Novell Client Login Window will appear.

Enter your Novell Username & Password. Click OK to continue to the Main Windows Start Menu.

Workstation can be used if the network has gone down or if your Novell login won’t work. You **will not** be able to access your network Faculty or Student drives.

*If you don’t know your username or password contact the ITS Help Desk at 753-8100.*

Start-Up Procedures
Crestron Digital Remote Control

Control of all the Smart Classroom equipment in this room is now handled digitally through the Control Touch Screen with the use of the Crestron Digital Controller. This remote, programmable unit does away with the need for hand held remotes. The control program is accessed using the Control Touch Panel sitting on the top of the Podium.
Podium Control Instructions

To use the controls on the Touch Panel just touch the screen. The first X-Panel Control will appear. Login is not necessary.

Start-Up Procedures

1. Touch on "Push Here To Start " to turn on the Projector.
Podium Control Instructions

This window will appear.

When the projector is ready you will see the X-Panel controls on the next page.

Start-Up Procedures

It takes 40 to 60 Seconds for the Projector to warm up and be ready to use the Podium Controls.
Podium Control Instructions

When the projector is ready it defaults to the PC input & you see this window.

2. To choose the source you wish to project, single click on a Source Button. One of the windows on the following pages will open and be projected on the screen.

Control Buttons

These buttons will not source the projector, only allow you to control the pieces of equipment.
