DO NOT REMOVE FROM CLASSROOM
McMurry 308
Smart Classroom User Help Guide
You must have a key to open the Podium Doors. Keys are available from Kathy King with the College of Health and Human Sciences in room 227 Wirtz Hall. You will be assigned a key for the semester and it is your responsibility to make sure the Podium is locked when your class is over.
1. Unlock Cabinet Drawers and Doors.

2. Slide-out Keyboard Drawer.

4. Turn on Computer by pushing Power Button.

Leave Main Power Switch in “On” Position at all times.

Do Not Attempt to Adjust this unit
Alternative Start-Up Instructions

Push Button Control Pad

There are Alternative Push Button Switches on the podiums which will allow you to turn the projector On or Off & assign input from the various sources.

NOTE: You **can not** control the actual functioning of the piece of equipment like you can with the on-line controls. That has to be done manually.

You can turn on the A/V Equipment by pushing the “On/Off” button on the Control Pad. This turns on the Projector and turns on power to the rest of the A/V sources other than the PC.

The Alternative Switches Can be used if you don’t want to use the PC or in case of a Network failure. They allow you to use the Smart Podium equipment without the computer control panel.

Orientation & Start-Up Procedures
5. Turn on Computer Monitor.
6. Turn on Document Camera. Power switch on top upper right.
Note: Control of all the functions of these pieces of equipment is now thru the Digital Control Panel on the Computer.

Document Camera

LCD Projector

VHS VCR/DVD Player
Start-Up Procedures

After the PC boots up the Novell Client Login Window will appear. Enter your Novell Username & Password. Click OK to continue to the Main Windows Start Menu.

Workstation can be used if the network has gone down or if your Novell login won’t work. You will not be able to access your network Faculty or Student drives.

If you don't know your username or password, contact the ITS Help Desk at 753-8100.
Crestron Digital Remote Control

Control of all the Smart Classroom equipment in this room is now handled digitally thru the Computer with the use of the Crestron Digital Controller. This remote, programmable unit does away with the need for hand held remotes. The procedures for use are as follows:

1. Double Click on the “Podium Control” icon.

2. Click on “Click Here To Start” to turn on the Projector.
Podium Control Instructions

This window will appear.

When the projector is ready you will see the X-Panel control on the next page.

Start-Up Procedures

It takes 40 to 60 Seconds for the Projector to warm up and be ready to use the Podium Controls.
Podium Control Instructions

When the projector is ready it defaults to the PC input & you see this window.

3. To choose the source you wish to project, single click on a Source Button.

Note: When not in use the Control Panel can be minimized. If closed it will reopen in the same configuration as before.

Crestron Control Panels

One of the windows on the following pages will open and be projected on the screen.
Podium Control Instructions

You may control the Elmo from the PC Monitor or from the units own Control Panel. This will not cause any problems.

You may need to turn on the Power switch on the Elmo.

Equipment Control Buttons.

Crestron Control Panels
When you click on the “DVD” Button a new X-Panel window for the DVD controls appears. You can control all the functions of the DVD player from this Panel. Check the next page for more details.
Podium Control Instructions
